CITY COUNCIL HOLDS FIRST MEET TO DETERMINE POLICY

Campbell's first City Council met informally Tuesday night to discuss future plans and policies of the new city.

The councilmen met in the office of Realtor J. M. Dahl, to hash over the problems that will confront them when the new city begins operations. Councilman Richard W. Morton reviewed the vote canvass of the election vote by the county board of supervisors and said he had been studying the state code relating to municipalities, and conferring with county officials on the process of establishing a sixth class city.

The Board of Supervisors instructed County Clerk E. T. McGee to file a certified copy of the election results with the Secretary of State, but until this is done, Campbell won't actually be a city and County ordinances will still govern it. The certification procedure is expected to take some two weeks to a month for completion.

Until Campbell has been certified a city, the city council will not meet officially. Until that time, a mayor will not be elected by the members of the council, and no ordinances can be adopted.

One of the primary needs of the new city government is for a city attorney to draw up ordinances in legal form.

The Council at its first get-together was not able to cite a pay scale for an attorney, but hopes to attract interested applicants. Although Councilman Morton is a practicing attorney, he, as a member of the council, may not legally serve as city attorney.

City Clerk Viola Krug was instructed to find out what municipalities of comparable size pay their city attorneys and she will also receive applications which may be filed.

The future status of fire, lighting and sanitary districts was brought under discussion, but no definite conclusions were reached. A memo is being prepared in the County Counsel's office for guidance of the new city in this respect.

The new councilmen paid tribute to Leslie Kerr's comprehensive reports and pre-election analyses of proposed costs, income, and other pertinent data relating to the new city of Campbell, and expect to use them as a basis of operation until more concrete information has been compiled.

The new city officials, when asked, expressed hope for the success of the new venture. They felt that members will cooperate to the best of their ability to work for the best interests of the new city, but seemed understandably uncertain about operation until they had some concrete matters to discuss.

BAPTIST CHURCH USE PERMIT PROBABLE WITH PLAN CHANGES

Despite denial of the County Planning Commission, the First Baptist Church of Campbell will probably get a use permit for its new church building on the south side of Camden Avenue west of Union Avenue after a church appeal was made with revision of plot plans.

Planning Commission's objections to the church lay in the plot plan which showed "the bare minimum" of space allotted for off-street parking and too-narrow side-yard.

Board of Supervisors took the church appeal under submission for a week while a review is made of plot plans and architect's drawings.

Majority of supervisors agreed objections would be overcome with a little revision of plot plans which would bring the desired use permit.

A 25-name petition from neighborhood property owners protesting the church as a traffic hazard and a possible source of noisy evening meetings was disregarded by the Planning Commission. Nestor Barret, director-secretary of the commission said.

Neighbors of the church, who voiced similar opinions before Supervisors, included Lion W. Grossman, Robert L. Baumgardner and Owen Hunter.

Camden Avenue, they say, is narrow, but well traveled. The number of cars a church will attract will only add to the traffic hazard. Rev. Edward Townsend, pastor, urged the church be granted its building permit and promised any building erected on the proposed site would conform to any architectural control the county wants to impose. He said all setback lines will be observed and off-street parking will be provided.

COUNTY CANVASS GIVES OFFICIAL VOTE RETURNS

Five absentee ballots opened by the County Board of Supervisors as reported by Richard Olson, Supervisor, accounted for one more yes vote and four against incorporation at the special election held last Tuesday.

This changes the unofficial count of 686 for incorporation and 633 against. The official count is 687 for the measure and 637 against.

The official count for councilmen does not change the position of those elected, although it does give Joseph V. Gomes, Verle Grizzle and E. C. Merrill four more votes.

Absentee ballots also accounted for three more votes for J. Frederick Snyder, Richard W. Morton, and Viola Krug.

J. B. Arends polled two more votes and L. W. Harmon and Leslie Kerr each received one more vote by way of absentee ballots than the unofficial tally compiled by the Campbell Press immediately after the voting had finished and the polling places had submitted their returns.

Walter R. Silberbauer polled 366 votes instead of 266 as listed in last week's issue.

BLISS JEWELERS TO CONDUCT AUCTION SALE

Peter Bliss, owner of Bliss Jewelers on Campbell Ave., across from the Grammar School will hold a gigantic auction sale starting tomorrow night at 7 p.m. and will continue until his entire stock of jewelry, silverware, clocks, diamonds, rings etc. is sold.

David M. Schaffer and Edward W. Kwok, auctioneers will conduct the sale. When queried by the Campbell Press Mr. Bliss said he had no immediate business plans.

UNION SCHOOL CONTRACT LET TO KALSCHED

Union Elementary School District's new school at Union and Chameran has been contracted by W. R. Kalsched and Co., San Jose.

Contract is for \$268,571. Revised project estimate covering site acquisition, contingencies and plans and survey as well as the building totals \$218,704.

Since estimates for the project were made two years ago local allocations division of State Department of Finance approved \$156,667 to cover cost increases. District officials have received no word as to status of additional funds relating to voter approval.

The new school will include five classrooms, two kindergartens, multi-use room and an administrative unit to be built on the eight acre site.

At least one school district, Loma Prieta Joint Union, is having to schedule a "retroactive" acceptance election because of State Attorney General's ruling on status of funds received after original State aid loan was approved by district voters.

Lt. (jg) C. Olds, USN, son of Mr. and Mrs. Corwin H. Olds of 10 North Second Street, Campbell, Calif., and is married to the former Miss Wanda L. Anderson, daughter of Mr. and Mrs. Harold F. Anderson of 2664 Great Highway, San Francisco, Calif., recently received the Air Medal for meritorious service as a plane navigator in Patrol Squadron 28 while operating in the Korean area, participating in 20 or more patrol and reconnaissance missions. The award was made during ceremonies at the U.S. Naval Air Station, Barber's Point, Oahu, T.H.

Erlendson, Mancini To Work With CUHS Orchestra, Band

Mr. Carl Erlendson, professor of music at San Jose State College, and Mr. Frank Mancini, conductor of the Modesto Symphony Orchestra, have been invited and will work with the Campbell Union High School band, choir and orchestra during the present school musical season.

This is a departure from the usual practice of evaluating high school band performance at the Berkeley Festival at Berkeley each year.

With advice and criticism of professional and well-known musicians, the local band can improve as the musical season progresses, instead of receiving a final rating at the end of the season.

The old system failed to give the inspiration and guidance which a respected and well-known leader could give by actually working with the group.

Erlendson is well known as director of the San Jose State Choir. Mancini developed the Modesto High School band, which has won three national championships.

Growth Of Drugs Outlined For Local Kiwanis

Mr. T. B. Smith, San Francisco District Manager of Eli Lilly Pharmaceutical Company, reviewed the past fifty years in drugstore operation and development, for the local Kiwanis Club at their regular meeting Tuesday.

Clyde Spellman and Phillip Salituri, other drugstore representatives were introduced as guests. Smith's topic "Know Your Drug Store" was a review of the development of drug stores which grew from the simple drug compounding organization for the alleviation of pain, to the modern store of the 10,000 articles variety which handles everything from toothbrushes to electric weighing machines.

Smith outlined the effects of modern drugs in the prevention of disease and the easing of pain which during the past 50 years has reduced hospitalization of patients from two weeks to the present two or three days.

At the next regular meeting, the Grammar School Orchestra will present their annual concert under the direction of Dick Gordon, for local Kiwanis members and invited guests.

Principal item under discussion will be the improvement of roads in the vicinity of and within the tract.

George E. Durkin, San Jose Tax Office, has been appointed temporary chairman of the committee. At the last meeting a nominating committee consisting of James A. Ersted, co-chairman, John Nesbitt, Steven Chelby, Clifton McIntyre, Glen Trout, Mrs. John Read, Mrs. Irene William, Mr. Raymond Buckner and Mr. Leone Cox, was appointed to work up a panel of officers to submit to the next meeting to be held March 26, next Wednesday at the Cambrian School.

Roads have fallen into bad repair and residents understand that although the streets were built to County specifications at the time, they have since not been accepted for maintenance by the county, according to Durkin.

HERBERT JONES GIVES LECTURE

Senator Herbert Jones, former senator of the California Legislature, now a local practicing attorney, gave a lecture to the Campbell Business and Professional Women's Club, concerning water in the Central Valley project with its relation to the local water situation.

Jones, completely equipped with maps, facts and figures, spoke at the regular meeting of the club at the Congregational Church introduced by President Dorothy Ellis. Diana Payne was chairman for the evening's discussion.

Jones brought out that after completion of the Lexington Dam we will have tapped all the water available in the area.

"With the increased population," Jones said, "Our water needs have increased proportionately." We will have to have outside sources such as the Central Valley and Hetch-Hetchy projects.

Jones also mentioned that increased population means increased water needs.

"Farm lands do not require as much water as densely populated areas." The speaker made clear that we have natural watershed or underground reservoir. The purpose of the dams in the hills he said is to hold excess water back until the water shed can absorb it rather than let it run off into the ocean.

The discussion was followed by a short business meeting.

WEST VALLEY HOSPITAL PROPOSAL MAY BE PUT BEFORE VOTERS AGAIN

The Board of Directors of the West Valley Hospital District will meet tonight where a probable decision will be reached on the bond issue for construction of the Los Gatos-Saratoga-Campbell area hospital. There is every indication that the bond issue will appear on the November general election ballot, after board members hear the non-partisan fact-finding committee tonight.

At a special election September 18, 1951, the measure won a majority vote, but failed to carry the two-thirds necessary. Final vote on the previous ballot tallied 2863 for and 2387 against.

Herb Shadle, 124 Alice Way, chairman of the hospital district, in a telephone conversation with the Campbell Press, said he had no idea whether the final decision would be reached on the issue tonight, but said that it was a good idea to bring the matter to public attention again.

Original plans for the district hospital called for a 50-bed, one-story building, with facilities for expansion into a 100-bed hospital. There is a possibility that financing arrangements would change to keep in line with current building costs.

If plans for the hospital construction were to go through the new building would be erected at a previously decided on site at Vasona Junction.

Elliot's Nursery Grand Opening This Saturday
Harley Thompson and Grant Coonrod, Campbell residents are the latest employees of the completely renovated Elliotts Nursery on the San Jose-Los Gatos Highway at Elliot's Center.

Thompson heads the landscape department of the giant plant and Coonrod is employed as a part time assistant.

Local merchants joined in wishing Hamilton Fish, nursery operator, success at the grand opening which took place this Saturday and Sunday.

The entire plant has been fumigated as a protection against pests, the ground has been sterilized, the lath house has been reinforced and painted. The two large glasshouses are being reconditioned and soon will be ready for the propagation of rare plants, including tropicals and potted varieties.

The nursery has been attractively fenced to cover piles of leaf mold and other working implements from the public.

A large parking place has been leveled and cleaned. A new touch added is a large gate placed to connect the nursery with the Red Coach Inn patio.

The nursery will carry all the general run of nursery stock and will specialize in many rare plants, the very fragrant ones, ones that take odd shapes, beautiful colors. They will carry all bedding plants, many tasty herbs and rare trees.

The nursery shop and office will be filled with garden tools, fertilizers, sprays, seeds, and other items.

All this has taken place through Hamilton Fish who now operates Elliotts Nursery. He is the owner and the plant expert that has made the new Elliotts possible.

'Democracy' Is Subject Of Joseph Gabriel At Meet
"Democracy is Like a Clock" (because it runs down unless wound occasionally) is the way Joseph Gabriel described his subject to Rotary members who met Monday at Hotel Lydon, Los Gatos for their regular weekly meeting.

Gabriel, past district governor, originally came from Lebanon, where he said he had seen real poverty, domination, over-taxation and lack of freedom. In his lecture he said it was the responsibility of all American people to work for freedom in the nation.

"It is better to realize what we have and work to make it better than to jeopardize that freedom by lack of interest and a passive attitude," Gabriel said.

"The country instead of having millions of friends is making enemies," Gabriel, cited the \$257 billion (Continued on Page 8)

Campbell High Baseballers Start League Play With One Win, One Loss

Although George Miskulin's Campbell High nine logged six hits, Larry Sutton poked a double for four trips at bat, Lincoln High's baseballers edged out a 4-3 win over the locals in Monday's contest.

Tom Rhodes, Harold Shumway, and Dick Farruggia accounted for the three runs scored by the Bucs. In four trips to the plate, Duane Burrows collected one hit, Dick Farruggia got one for three, Tom Rhodes made it one for two, Harold Shumway had a one for two count, and J. Propst tagged one for one trip. The longest hit was a double lifted by Larry Sutton.

Block 'C' Awards Go To Grammar School Athletes

Block "C" awards for football and basketball will be presented at a special assembly at Campbell Grammar School Friday at 2:30 p.m. Vice-principal Neal Royer, physical education director at the grammar school will also make the official presentation of the County trophy, won by the "A" division basketball team. Campbell's "A" team scored the greatest number of wins in County League play for the December-February season.

New basketball and baseball uniforms for the Campbell teams, recently purchased by the Parent-Teachers Association will be shown at the assembly. Block "C" awards were bought for the team by the students themselves with profits from ticket sales for the Old Settlers Day Variety show.

The program details have been arranged by Willis Dahl, assisted by Rodger Swan.

Buc Onslaught Downs Menlo, 17-3

A seventh inning 10-run rally set the Bucs off to a solid 17-3 win over Menlo School at Menlo in their season opener last Thursday.

Coach George Miskulin's high school nine held the Menlo crew scoreless after the second inning of play. Steady, all-around team work plus consistent singles by Burrows, Sutton, Bacon, Probst and Periera, coupled with faulty pitching of Menlo hurlers kept the locals on the top of the heap for the whole afternoon.

Two runs scored on a missed fly ball, three came in by walks, and one scored on an error.

Box Score:

Tony's Busy Bee Cage Quint Ties Food Center For 'B' Cage Title

Tony's Busy Bees buzzed into a lead tie in the Campbell city league's basketball circuit's "B" division last week with a 49-34 win over Maderis Food Center.

McCune Citrus holds top spot in the "A" division, although they drew a bye on the last round of play. Willow Glen's Zelators are presently pushing the Citrus kings for top honors.

Games for this week have been canceled since most of the clubs are participating in the San Jose tournament.

Campbell Net Men To Face Fremont

A fifteen-man net squad, mostly made up of Buc basketballers, has been working out violently in the face of March winds and howling rain at Campbell High in preparation for the first encounter with Fremont March 20.

Jim Sheppardson, Dick Carter, Dennis Kelly, Dick Kaufman, Jon Dorman, John Cowden, Roger Mahaffey and Jerry Zisch seem to be the lads who will do most of the heavy racket-busting in the coming contests.

Spring clothing will be the order of the evening. Everyone is welcome, including stags, reports Nancy Titus, social affairs commissioner.

Signups to bring guests will begin March 17 and end today. Student body card holders will be admitted free, the social affairs commissioner says.

BOY SCOUT UNIT BLOOD PLEDGE NOW UNDER WAY

The Cub Scouts, Boy Scouts, Explorers, and their Adult Leaders, some 3800 strong have completed plans to participate in the Council-wide Blood Donor Pledge Campaign which started Sunday. The one hundred and twenty Units of the Council will join with Packs, Troops and Explorer Posts throughout the nation to carry on this Civic Good Turn.

Council Commissioner Hilton P. Ryder who heads the campaign in the Council announced that all Unit leaders had received their kits containing the necessary pledge cards and information to organize the campaign within their Units. The program, declared Commissioner Ryder, comes as a direct request from the United States Government through the Department of Defense to help reach the quota of blood needed for the Nation's Armed Forces. It is understood Cub Scouts, because of their age, are not asked to give blood,

but their job is to appeal to adults to donate blood to meet this serious need.

Each boy will be given blood donor cards and will do his best to secure signed blood donor pledge cards during the two week campaign. The goal set calls for one signed pledge for each five registered members of a Unit. If this goal is reached, a total of 700 pints of blood will be added to the stockpile for members of the Armed Forces. The public is urged to cooperate with the Scouts and encourage them as they go about seeking to enlist blood donors. Special recognition will be given by the local chapter of the American Red Cross to those Units that reach the goal set by the campaign committee.

MARGARINE SALES

Grocers in New York, and in the seven other states which still retain restrictions on selling yellow margarine, have calculated that each grocery loses \$5,000 in trade a year because housewives motor across nearby state lines to shop in stores which are allowed to sell the food spread with color added.

Safety Council Issues Warning On Bad Driving

The Santa Clara County Safety Council today issued a new warning to all motorists in the county that their safety depends on their own driving habits.

Commenting on the Safety Council's intense interest in having the number of available highway patrolmen increased in the county, Kevin Twohy, managing director of the Santa Clara County Safety Council, stated that the organization does not want to give the impression that increased highway patrolmen in any number will bring about traffic safety.

"That adequate number of enforcement officers is of vital importance, of course, in controlling the driving habits of the habitual violator," he said, "and this is especially true since the vast majority of accidents are caused by the small minority of drivers, who, through lack of intelligence or competence are what we call repeat violators. Nevertheless, neither the number of enforcement officers, nor the type of highway will effectively reduce accidents unless the drivers themselves want these accidents reduced. There is no substitute for the use of skill and common sense in driving."

The Safety Council issued this warning in commenting on the recent series of traffic accidents throughout the county which have raised the total of accident deaths above that of last year at this time.

SPEED DEMON

Supersonic speeds up to 942 miles an hour will be reached by whirling blades of a giant new turbine-generator being built to supply additional power for Alabama. It will take an hour and a half to bring the machine to top speed; half an hour to stop it. The huge generator will furnish enough power to meet the needs of a city of about 200,000.

Local Phone Calls Now Cost 10¢

The charge for local telephone calls from coin telephones through California will be changed to ten cents starting Friday, March 21, 1952.

At the same time, the three per cent temporary surcharge will be removed from monthly telephone bills of all telephone subscribers.

According to W. E. Williams, Pacific Telephone District Manager, this surcharge was placed in effect only during the period needed to make equipment changes required for ten-cent operation of public telephones. It was designed to avoid a higher permanent increase in exchange rates and was necessary to procure the revenue needed while public telephones were being modified.

The conversion is being completed three months ahead of the eight months allowed by the California Public Utilities Commission, and was expedited in order that the company might remove the three per cent surcharge as soon as possible.

Most of the changes to the new rates will be made on March 21, but there may be some public telephone locations in dial exchanges which company representatives will be unable to cover until a few days following.

Under the new rates, customers may deposit one dime or two nickels when placing calls. New instruction cards will be displayed at all coin telephones to inform users of the new rates.

SERVICE NOTES

Along with other crewmen serving aboard the aircraft carrier escort USS Rendova, Sgt. Robert L. Strandberg, USMC, of 41 Mission Way, Campbell, recently participated in the largest Pacific Fleet training exercises held since the Korean outbreak.

The exercises called "Lex Baker One," took place off the coast of Southern California. Over 70 ships and 15,000 men of the Navy and the newly activated 3rd Marines participated.

Reality was added to the mock war games by assuming that lower California and several islands off the shore had been captured by an enemy "aggressor." The Navy problem was the retaking of enemy-held islands through amphibious assaults.

Ships of all types were used in the exercises including submarines and aircraft carriers.

"Aggressor" submarines and planes made repeated "attacks" in harassing the task force, adding even more reality to the operation.

Clifford L. Smith, son of Mr. and Mrs. Harry Smith, 28 Casey Road, is undergoing recruit training at U.S. Naval Training Center, San Diego.

He entered the Navy last Jan. 12. Initial training includes instruction in seamanship, gunnery, signaling and other phases of Navy instruction. Course lasts 11 weeks.

Voters Register In Early Survey For June Primary

In the County of Santa Clara, 114,061 voters registered, of which 58,072 were Democrats, 52,203 Republicans, 135 Independent Progressive and 103 Prohibition. 3,475 declined to state political preference, and there were 73 miscellaneous registrations.

On a statewide basis, a total of \$4,520,689 men and women are qualified to vote in the June 3 consolidated primary election, it was announced today by California's Secretary of State Frank M. Jordan, following compilation of figures from a preliminary survey of registrations.

Jordan said there were 155,632 Californians who declined to state their party preferences and that there were 5,850 miscellaneous registrations.

In the battle between the two major political parties, Republican registration jumped 3.32 percent. In 1948, the Democratic registration of 2,165,878 was 48.95 percent greater than the Republicans' 1,454,069. This year, with a registration of 2,575,017, the Democrats dropped to 45.63 percent above the Republicans' 1,768,134.

The Secretary of State, in urging an all-out registration, said prospective voters had until April 10 to register for the June 3 direct and presidential primary elections.

WHAT ARE TODAY'S FACTS ABOUT NEW CAR ENGINES AND POWER STEERING?

LAST YEAR Chrysler introduced its new FirePower V-8 engine, and America's first passenger-car full-time power steering. Both new ideas "took hold" in a big way.

Today, others are announcing "new engines" and "power steering" . . . but with some basic differences worth keeping in mind if you're buying a new car.

First: about "new engines." The fact is, a really new engine design happens only once in a great while. It did happen in the FirePower V-8. Its 180 h.p. was only incidental to its basic new design. Its key idea is a hemispherical combustion chamber, which makes even non-premium gasoline develop more usable power than other designs can get from premium fuel.

Only Chrysler engineering has so far mastered this design. Several cars do have some power increase, in terms of previous designs. The important fact is that FirePower is not a "warmed-over" engine, but brand new in performance, construction, and efficiency.

In power steering, too, there are basic differences.

Chrysler uses hydraulic power, always in effect, to do two things. First, it does 4/5 the steering work as you turn the wheel. Second, we've cut the amount of wheel turn needed by over 1/3.

Parking or cruising, you get more and easier control than ever before. In sand, snow, or ruts, the hydraulic power is always there to keep the front wheels from "steering back" at you. You get the same amount and feel of control all the time . . . full-time ease and full-time safety.

Actually, the differences, both in engine performance and in steering safety and ease are impossible to put in words . . . but just as impossible not to feel the moment you get into a Chrysler and drive it! Why not see your Chrysler dealer and do that, soon?

Country Women Hold Men's Night

The annual Men's Night dinner held Monday, March 7, was an unusually enjoyable event with a record attendance.

The decorations were very beautiful. Large shamrock cut-outs were about the walls in keeping with St. Patrick's Day. The spring blossoms, camellias and greenery in profusion were furnished by the James Rare Plant Nursery of Campbell.

Dr. Stanley Benz, dean of men at San Jose State college, carried out the theme of the evening, "It's Fun to Be Fooled," with a performance of sleight-of-hand. A men's trio, "Brown, Stephens and Newberry," in costume, sang a group of hill-billy songs which were enjoyed by all.

Mrs. W. R. Morgan was the hostess and chairman of the evening. Her assistants were Mesdames Anthony Jurras, G. K. Shrader, G. R. Newcomb, J. D. Cantoni, R. J. Flagg, H. T. Cousins, James Gled, Henry Jensen, Klaude Block, Dale Hansen, E. T. Ballott and T. C. Ellis.

Mrs. L. E. Hendricks, chairman for the meeting April 7, announced the annual pilgrimage, the details of which will be published next week.

away from the traditional American system because of teaching tainted with Communistic ideologies.

As a remedy for the situation the report cited by Walsh suggests that schools teach the contrast between the American system and foreign ideologies.

Harry Barnes in his conservation lecture talked about dam to be built on the Uvas, and discussed the bond issue to be voted on in the water conservation district. He also mentioned the budget session of the legislature with the key items being the Governor's budget and sales tax.

J. C. Gordon, district deputy, on the subject of UMT, made it clear that the Grange does not oppose military training but does oppose compulsory military training.

Mr. Lambert Skillman in a lecture program about trees read a poem by Miss Clara Baldwin. Mr. Charles Scarper read Jouce Kilmer's "Trees." Also mentioned in Mr. Skillman's talk were outstanding redwood trees in the Santa Clara County, mentioning in particular his own 250 foot tree in the Santa Cruz mountains. Another was the tree planted by Teddy Roosevelt at Winchester and Campbell Ave.

The Grange voted to credit Tommy Blackman with his Grange dues during his service in the Navy.
